CAREER OBJECTIVE

Aspiring data engineer with hands-on experience in data analytics and engineering tools. Eager to transition into a data engineering role, leveraging expertise in data modeling, ETL pipelines, and big data technologies to support business analytics and decision-making. Enthusiastic about creating scalable and efficient data infrastructure to enable data-driven insights.

TOOLBOX

Tech Stack	Proficient in Python, SQL (MySQL, Transact-SQL), PySpark, Databricks
Data Engineering	Experience in building ETL pipelines, data modeling
Data Visualization	Proficient in Power BI, Tableau, Qlik
Cloud Technologies	Experience with Azure
Other Techniques	Skilled in Git, Docker, CI/CD, Azure DevOps, Alteryx, Airbyte
Language	English Proficient

PROFESSIONAL EXPERIENCE

PwC Australia <i>Consultant, Data Analytics</i>	December 2022 - Present <i>Sydney, Australia</i>
---	---

- Spearheaded the application of advanced data analysis and visualization methodologies, delivering actionable insights to stakeholders, supporting strategic decision-making.
- Designed and developed Azure pipelines to automate the full data workflow—creating SQL-based input caching for archival, running Python-based model, and comparing outputs against manual results for validation.
- Orchestrated the implementation of data pipelines for multiple projects, including data extraction, transformation, loading (ETL), and modeling.
- Collaborated with internal teams to integrate data pipelines into a SaaS platform for ongoing remediation projects, ensuring seamless data flow and integration.
- Developed and maintained data assets, focusing on refactoring, testing, and documentation to ensure reliability and reusability.
- Utilized SQL to extract, clean, validate, and transform data, improving the accuracy of data-driven processes.
- Automated internal processes using Python, resulting in a 80% reduction in manual validation time.
- Facilitated effective communication between technical and non-technical teams, translating complex data requirements into actionable solutions.

Australian Group Insurance <i>Group Insurance Analyst</i>	October 2022 - December 2022 <i>Sydney, Australia</i>
---	--

- Conducted detailed analysis and reconciliation of client data to ensure accuracy in premium calculation and compliance with policy terms.
- Performed quality assurance peer reviews, ensuring accuracy and consistency in premium calculations.

EDUCATION

University of Sydney Master of Commerce, Business Analytics & Finance WAM: High Distinction (87.5/100)	2020 - 2022
University of New South Wales Bachelor of Actuarial Studies Minor in Finance	2017 - 2020

INTERNSHIP EXPERIENCE

Sovereign Wealth Fund Institute Inc.

January 2022 - March 2022

Finance Research Intern

Remote

- Reviewed financial statements and compiled data on assets under management for various funds.
- Prepared summaries and background reports on companies, contributing to internal knowledge sharing.

VOLUNTEERING

USYD Peer Mentoring Program

February 2022 - April 2022

- Provided mentorship to 10 students, sharing resources and tools to help them adjust to the academic environment.
- Supported mentees in their academic and career development, offering advice and guidance.

USYD Industry Impact

February 2022

- Collaborated with a team to develop a strategy for Community Health to retain and attract volunteers post-pandemic.
- Conducted research on volunteering patterns and competitors in Victoria, providing recommendations for improvement.
